

Total Automation & Safety Solutions

Proven world-class automation & safety products

- » Innovative technologies
- » Easy to use, install and integrate
- » Powerful solutions

Omron delivers engineering expertise and cost effective Automation and Safety solutions

With over 80 years in the control business, OMRON Automation and Safety is a leading global supplier of automation systems.

Omron manufactures products to help you improve the quality and efficiency of everything you make. Our broad range of proven automation and safety products bring you an extra measure of value in space savings, ease-of-use, and down-time reducing diagnostics.

We can help you simplify design, reduce engineering effort and lower installation costs. It all adds up to providing greater machine reliability, increased throughput, and a competitive advantage for you.

Omron Facts

- » 80 years in the automation and controls business, founded in 1933
- » \$6.5 billion sales (USD, April 2013)
- » 40% of our sales come from industrial automation. Electronic components, social systems, automotive electronics and healthcare make up the balance
- » 35,411 employees worldwide

Primary Industries Served

- » Automotive
- » Food/Beverage
- » Semiconductor
- » Electronics and Small Parts Assembly
- » Pharmaceutical/Cosmetics

Automation Expertise

- » Packaging & Material Handling
- » Measurement & Gauging
- » Inspection
- » Track & Trace
- » Quality Improvement

FIND INFORMATION FAST

Shortens Your Search

Photoelectric Sensors

E3FA/E3FB & E3RA/E3RB

Full line-up of cylindrical M18 threaded photoelectric sensors designed for standard or special applications

Quick Link
B278
omron247.com

- Compact plastic or nickel-plated brass housing in straight or 90° angled designs.
- High power red LED for improved power and sensing distance.
- IP67, IP69K for wash down resistance.
- Comparable sensors: Banner S18, Sick V18 & MH15, P+F GLV18

Proximity Sensors

E2B

Reliable ferrous metal detection in standard industrial environments

Quick Link
A289
omron247.com

- M8 - M30 sizes, Single or Double sensing distances in Short or Long body housing
- All-around 360° visible output indicator.
- Laser-etched part numbers that won't wear off.
- IP67 water resistance.

Fiber-optic Amplifier and Sensor Heads

E3X-HD & E32-Series

Wide selection of shapes, environment-resistant, and special beam fiber optic heads to pair with the E3X-HD amplifier.

Quick Link
B342
omron247.com

Quick Link
B533
omron247.com

- Simple one-button smart tuning for intuitive sensor set-up.
- Dual digital display to easily confirm settings and sensor status.
- Automatic compensation function for debris build-up or sensor misalignment.
- Comparable sensors: Keyence FS-N & FS-V, Panasonic FX-300, Banner DF-G1 & D10 series

XS2F/XS3F Connector Cables

M8 and M12 cordsets to pair with connector type sensors.

Quick Link
A264
omron247.com

Quick Link
A267
omron247.com

- Single-ended cables with M8 and M12 connectors available in a variety of lengths
- PVC and PUR cable materials available
- IP67 water resistance

E3FA applications

E32 applications

E2B applications

Power Supplies

S8VK-G

Reliable and Easy Operation Switch Mode Power Supply

Quick Link

P222

omron247.com

- Large venting on top allows heat to escape quick allowing the S8VK-G to last longer
- Space-saving compact design.
- 15/30/60/120/240/480 W models available
- Safety standards for worldwide applications - Power Boost to 120% of rated current

S8VK-G Design Flexibility

Simply click onto DIN rail using one hand to mount in a flash. Effortless and time saving! Vibration resistance to 5G's when mounted near machinery.

The wide operating temperature range of between -40 to 70 degrees C (-40 to 158 degrees F) guarantees stable operation in any environment where other power supplies may start to fail.

Temperature Controllers and Temperature Sensors

E5_C

Easy-to-Read Large White LCD Display

Quick Link

M425

omron247.com

- Omron's E5_C series offers a variety of temperature controllers designed to meet many of today's needs
- 60 mm depth allows E5_C series controllers to be used in shallow electrical panels
- Unique flat front allows E5_C series to mount flush on a panel enclosure

E52

A great variety of high-precision temperature sensors.

Quick Link

M432

omron247.com

- Sheathed platinum resistance thermometer, sheathed thermocouple.
- Broad line offering which can be order in many different lengths
- Completes the temperature controller bundling package

Monitoring Relays

K8AK-AW

Current Monitoring Alarms

Quick Link

R635

omron247.com

- 22.5mm wide housing
- Single Phase & 3-Phase Monitoring
- Over & Under Current Monitoring
- Over & under Voltage Monitoring
- Phase loss & Phase Failure Monitoring

K8AK-TH

Temperature Monitoring Alarms

Quick Link

R639

omron247.com

- Multi-input support for thermocouple or Pt100 and Pt1000 sensor input
- Changeover relay: fail-safe selectable
- Single or two point level control
- Level controller can be used as a float switch

General Purpose Relays

MK-S series

Exceptionally reliable
General-Purpose Relay

Quick Link

R235

omron247.com

- Exceptionally reliable General Purpose Relay with lockable test button.
- Octal base style relay which contains 2 and 3 pole contact configuration
- Mechanical indicator is standard on all models

MY series

Versatile plug-in relay that sets
the standard

Quick Link

R223

omron247.com

- Track Record of One Billion Relays Sold Worldwide
- Multi-pole configuration and compact size makes MY series ideal for various applications
- Standard LED indicator allows operators to visually check relay operation

General Purpose Relays

LY series

Miniature power relay

Quick Link

R224

omron247.com

- Compact, General Purpose 15-A and 10-A Relays ideal for many applications.
- LED indicator which allows user to instantaneously check relay operating status
- Capable of switching 15A resistive and inductive loads

G2RV

General purpose plug-in ultra slim 6mm

Quick Link

R226

omron247.com

- 6mm width capable of switching 6A @ 250VAC
- Strong mechanical pins makes allows G2RV to easily mount into socket
- LED indicator allows operator to easily check relay operation

Solid State Relays

G3RV

Slim 6mm wide Plug-in Solid State Relay

Quick Link

R427

omron247.com

- Solid state plug-in ultra slim 6mm relay ideal for automation applications
- Strong mechanical pins allows G3RV to easily mount into socket
- LED indicator allows operator to easily check relay operation

G3NE

Compact, low-cost, SSR switching 5 to 20A

Quick Link

R429

omron247.com

- Quick connect terminals #110 (line side) and #250 (load side) make installation quick and easy
- Thin profile allows G3NE to be used in limited space conditions

Push Buttons

A22R/M22R

22 mm Dia. Lighted/Non-Lighted Pushbutton Switches

- Shiny metal bezel
- Short mounting depth
- Easy to wire
- Pushbutton, Selector, Key-selector, and Indicator are available

Quick Link
L824
omron247.com

Basic Switch Product

Z series

Most Popular Basic Switches

- Best selling basic switch boasts wide variety, high precision
- 15A switching capacity
- Long life, high-accuracy and high quality
- Micro load models available
- Molded terminal-type models available

Quick Link
L862
omron247.com

Basic Switches

A series

Basic Switches designed for High-capacity Switching

- High capacity switch handles 20A loads with large inrush currents
- Long life with high-accuracy and high quality
- Direct switches loads such as motors, halogen lamps and solenoids

Quick Link
L863
omron247.com

X series

Basic Switches designed for DC circuits

- Direct current switch with AC / DC load rating 10A @ 125VDC/AC
- Incorporates a magnet in the contact mechanism to deflect the arc
- Ideal for switching DC circuits
- Wide variety of actuators for a wide applications

Quick Link
L864
omron247.com

Limit Switches

ZE/ZV/ZV2 series

High Breaking Capacity Switches

- Large 15 A, 250 VAC switching
- Long service life
- Wide range of actuators
- Rugged die-cast aluminum housing

Quick Link
L826
omron247.com

WL-N series

Robust Single-Pole/Double Break Switches

- Rugged die-cast aluminum housing with high mechanical strength
- Rated IP67 with waterproof, oil-tight and dust-proof construction
- Easy to install and maintain
- Wide range of actuators

Quick Link
L822
omron247.com

Emergency Stop Devices

ER6022

Rope Pull Emergency Stop Switch -
Spans to 80m

SpeedSPEC
ER6022
sti.com

- Rope tension indicator makes setup easy
- IP67 (NEMA 6) for wet environments
- Manual reset button can only be operated with proper tension on rope

A22E

E-Stop Switch – 22mm

SpeedSPEC
A22E
sti.com

- Lighted and Non-lighted versions
- Push-pull to push-turn manual reset
- Direct opening mechanism to open the circuit when the contact welds

Safety Interlock Switches

CM series

Coded Magnetic Safety Interlocks
and Controllers

SpeedSPEC
CM
sti.com

- Combine door switch and E-stop monitoring
- Monitor multiple switches
- Stainless steel available for harsh environments

D4N

Safety Limit Switch

SpeedSPEC
D4N
sti.com

- Conforms to international standards
- High contact reliability for standard and microloads
- Slow-action and snap-action models with isolated contacts

Safety Interlock Switches

D4NS

Safety Door Switch

SpeedSPEC
D4NS
sti.com

- Up to 3 contacts with metal or plastic operation head
- High contact reliability for standard and microloads
- M12 connector models available

D4SL-N

Guard Lock Safety-Door Switch

SpeedSPEC
D4SLN
sti.com

- Super compact, 6-contact
- Reduced wiring time with connector models
- Drive low current solenoids directly from controller

Programmable Relays

ZEN

CPU Units/Expansion Units

- Easy to use
- For small scale Control Applications
- Offers precision and space savings

Quick Link

H233

omron247.com

CP1E/L/H

CPU Units/Expansion Units

- Fully featured Compact PLC family.
- Integrated Ethernet available.
- Integrated Analog available.

Quick Link

H234

omron247.com

AC Drives

AC Drives

Multi-function Compact Inverters

- V/Hz or sensorless control
- Built-in Modbus
- Safety Features

Quick Link

D228

omron247.com

Human Machine Interface

NB series

Operator Interface Terminals

- Value displays from 3.5 to 10.1 inch.
- Feature-rich standard interface with class leading color, brightness, and longevity, as well as timesaving maintenance/troubleshooting options.
